

Year 9 End of Year Assessments

Dear Pupils, Parents and Carers,

The attached information is to help map out your end of year assessments. For the most part the best place to revise is to use your exercise book from this year as well as any booklets / textbooks you have been given by your class teacher. You will see that there are some web resources you can use as well, and if you go to the school website you will find that the links will take you directly to places where you can revise. (On the website click under 'Academic' to find this information.)

For most subjects, the guide time for the homework over May half-term is about an hour. This is just a guide to help you plan your revision and preparation. By giving you this information 2 weeks before the half-term holiday it also gives you the chance to plan out your work and even complete some before you start the half-term holiday if you want.

Please listen carefully to your teacher in class. You have 2 booklets you can use to make notes and jot down ideas. You can also record the date of your assessment for each subject to help you organise your work.

Please do not worry about your end of year assessments: they are just a chance for you to see the areas you are doing well and to see the next stages in your work. If you do find yourself worrying remember that all the adults at school and at home are here to help you, and if you are worrying, please talk to me, your tutor or someone at home and we will always listen to you.

Good luck!

Mr J Coon & Mrs A Ward
Heads of Year 9

Religious Education

Being Organised

Every pupil has a green and red exercise book they have been completing throughout the year.

THIS IS THE BEST PLACE TO START REVISION. It will also benefit pupils to revise material completed on Teams during lockdown.

The topics we have studied this year are:

- Who was Jesus?
- Love and sacrifice
- Capital punishment & the conscience
- Apartheid
- Judaism

Report descriptors:

Knowledge and understanding of Jesus' sacrifice and how this influences a Christian's life

Evaluation of the nature of conscience and how it can influence decision making

Knowledge and understanding of morality with reference to Apartheid in South Africa

Knowledge and understanding of key beliefs and teachings in Judaism

Homework for May Half Term

Title	Revision
Description	A3 summary sheet
Length of Time to be Spent	1 Hour
Guidance of what to include	Topic Studied in Year 9
Completion Date	W/B 7 th June

Date of Assessment: _____

Maths

Being Organised

Unit 1 Indices and standard form	Unit 6 Sequences, inequalities, equations and proportion
Unit 2 Expressions and formulae	Unit 7 Circles, Pythagoras and prisms
Unit 3 Dealing with data	Unit 8 Graphs
Unit 4 Multiplicative reasoning	Unit 9 Probability
Unit 5 Constructions	Unit 10 Comparing shapes

1. Before you start revising, get all your notes sorted, and draw up a list of all the topics you need to cover. Plan exactly when you are going to revise and be strict with yourself with treats to look forward to.

2. Don't just read your notes! The only way to revise maths is to do maths. You will do much better spending 20 minutes doing maths questions than spending two hours just reading a textbook. The more questions you do yourself, the more you will get right, the higher your confidence will be, the more you will enjoy your revision, and the better you will do in the exam.

3. Use the internet. The internet is like having your own personal teacher who is available for you whenever you like. We recommend Hegarty Maths and Mymaths but there are other websites that can set you questions and mark them for you, take you through step-by-step how to tackle certain topics, and use fancy illustrations and animations that might just make that really annoying topic finally make sense.

4. Don't just practice the topics you can do. If you are really good at fractions, for example, it is very tempting to keep doing lots of fractions questions and then smiling as you keep getting them right. But unfortunately, the exam is probably not going to have more than one or two fractions questions. Although it can be painful, work your way through the topics that you struggle with, because it is much better to struggle on them at home, when you have time on your side and the answers available, than it is to struggle in the exam.

5. Make sure you ask for help. Again, once you are in the exam you are on your own, but during revision you are certainly not. If you are stuck on a topic or a question, then ask one of the people from your class, or your teacher, or someone at home, or look on the internet. Don't suffer alone!

6. Practice doing questions under exam conditions. Get someone to pick you a set of questions from your textbook, or get some from a maths website, and try doing them in silence, with no help, for a fixed amount of time. This will get you used to what it will be like in the exam, how fast you need to go, and is the best way of checking that you really understand a topic.

7. Practice using your calculator! Many people seem to assume that any question that lets you use a calculator is easy, and all calculators work the same. Those people are wrong on both counts. All calculators work differently, and unless you have used yours for lots of different types of questions (trig, Pythagoras, negative numbers, indices), you might come unstuck in the exam. Find out if there are any problems early enough to correct them, and don't forget to bring your calculator to the exam.

8. Most important of all, try not to worry. A little worry is not a bad thing as it keeps you focused, but revision certainly shouldn't be a stressful time. It should be a time where your brain gets chance to sort all the information it has been bombarded with and make sense of everything.

Homework for May Half Term

Title	Practice Assessment + Hegarty
Description	Questions in the style of the assessment
Length of Time to be Spent	1 Hour
Guidance of what to include	Ensure working is clear and explanations given where required
Completion Date	W/B 7 th June

Date of Assessment: _____

English

Being Organised

Every pupil has been issued with a PowerPoint booklet that has been created by the English Department. This includes a series of activities, past questions and example answers. This will be used during lessons to help prepare pupils for their exams, and it is the best place for pupils to start their revision.

All pupils should bring their PowerPoint booklet to all lessons in the lead up to their exam.

Homework for May Half Term

Title	Key Revision
Description	Students will complete a short series of questions in preparation for similar challenges in the end of Year Assessment
Length of Time to be Spent	1 Hour
Guidance of what to include	Full considered answers
Completion Date	First lesson after the half term

Date of Assessment: _____

Art

Being Organised

Students are not required to revise and learn specific content in preparation for their examination. The examination is a practical one and as such is a test of their knowledge, understanding and technical skills developed through their projects this year. Including drawing accurately from a secondary source, being able to select appropriate compositions, being able to use and combine graphite, pen and coloured pencils effectively through blending and tonal shading techniques.

Students will be shown a range of examples of various graded past examinations in order to enhance their understanding of the examination itself.

Students must have the following materials for the examination: Pencils, rubbers, rulers, sharpeners, **coloured pencils – Please note that these are essential and listed as such in the school's essential equipment for students.**

Other Online Material

[DO'S & DON'TS: How to Draw with Colored Pencils](#)

Students are to watch the tutorial video using the link which covers blending techniques required to mix colours accurately.

Homework for May Half Term

Title	Street Art
Description	A drawing from one of the resources provided
Length of Time to be Spent	40 minutes
Guidance of what to include	Covered within the lessons prior to May half term
Completion Date	First lesson after half term.

Date of Assessment: _____
