

Computer Science: Year 11 Mock 1 2021

Being Organised

Every pupil has been issued with pocket revision posters and they will be issued with a component 1 and component 2 revision booklet, one for each part of the course. Pupils have exercise books and folders and they will also be provided with a folder to keep their revision materials in from the revision sessions. For each lesson pupils should have their exercise books, textbooks and folders and bring along their component 1 and component 2 revision booklets to the revision sessions.

Independent Revision

In addition to your homework you could use Seneca Learning to go through each of the topics we have covered and complete the practice assessment tasks throughout. You could also go over the revision booklet materials you have been provided with highlighting key terminology and creating mind maps of each topic and the key terminology associated with each topic.
