

Gardening Club

We warmly invite pupils from all year groups to attend the gardening club after school on Monday.

You will have the opportunity to develop skills in all aspects of gardening from planning, soil testing, soil preparation, taking cuttings and of course planting.

We recommend that you bring a change of footwear with you. The sessions last from 3:15 to 4:15 and we will meet at the main library.

In the event of wet weather we will work on computers and complete a specifically designed booklet.

If you are interested please speak to Miss Waldock in the library or myself Mrs Duggan.
